Table of Contents

Key Findings _____ Erreur! Signet non défini.

INTRODUCTION _____ Erreur! Signet non défini.

I – Current and future situation in the New World wine-producing countries _____ Erreur! Signet non défini.

New World wine producing countries represent 15.5% of the world's vineyard area. _____ Erreur! Signet non défini.

From now until 2005, for every hectare planted in the New World, one hectare will be ripped out or abandoned in the Old World. _____ Erreur! Signet non défini.

ha) *Table 1 : Trends in planting and production of vineyards in major wine producing countries (000)*
Erreur! Signet non défini.

The New World represents today 21% of the world's production and should reach 23% by the end of 2005. _____ Erreur! Signet non défini.

Table 2 : Quantity of wine produced by the New World (millions of hl)..... Erreur! Signet non défini.

Table 3 : Estimates for 2005 of the quantity produced of wine by the New World (million hl) Erreur! Signet non défini.

II – New World wine producing countries and their global market share. _____ Erreur! Signet non défini.

The global market share of New World wines was less than 10% in 1994. In 2005 they will account for more than 24% of the global wine trade. _____ Erreur! Signet non défini.

Table 4 : Wine exports of the New World (millions of hl) Erreur! Signet non défini.

By 2005, the volume of wine exported by the New World will be higher than the volume exported by the French or the Spain _____ Erreur! Signet non défini.

Table 5 : Wine export trends : New World versus Old World (hl)..... Erreur! Signet non défini.

III – New World vs. Old World: Wine war on the same markets _____ Erreur! Signet non défini.

In Old World wine producing countries, New World wines represent a very small market share in total imports _____ Erreur! Signet non défini.

In non-wine producing countries, New World wines have successfully challenged the Old World's dominant position. _____ Erreur! Signet non défini.

Table 6 : UK wine market - Import trends : New World versus Old World (%) ... Erreur! Signet non défini.

Table 7 : US wine market - Import trends : New World versus Old World (%).... Erreur! Signet non défini.

Table 8 : Netherlands wine market (Still Wines in Bottles - <13%vol)- Import trends : New World versus Old World (%)..... Erreur! Signet non défini.

Table 9 : World Wine Exports (millions of hl)..... Erreur! Signet non défini.

Table 10 : Australian wine price evolution (in AU\$/l)..... Erreur! Signet non défini.

Table 11 : Chilean wine export evolution in selected markets (Millions of US \$) Erreur! Signet non défini.

Table 12 : Share (in %) of vineyard area directly controlled by leading companies Erreur! Signet non défini.

Table 13 : Industry leaders' share in national production (in %)..... Erreur! Signet non défini.

IV – The effect of pricing strategies _____ Erreur! Signet non défini.

Table 14 : structure (in %) of the wine price offerings in retail shops and supermarkets in Britain– Survey conducted in October 2001 Erreur! Signet non défini.

Table 15 : structure (in %) of the wine price offerings in retail shops and supermarkets in the US – Survey conducted in October 2001 Erreur! Signet non défini.

V – Is the Golden Age for the New World coming to an end ? _____ Erreur! Signet non défini.

The Old World wine-producing countries now reacting strongly to the new competition Erreur! Signet non défini.

Table 16 : Trends in volume market share of some Old World Wine producing countries Erreur! Signet non défini.

New World wine is facing tougher competition at the higher end of the market. _____ Erreur! Signet non défini.

Table 17 : Market share (in %) of world exports of wines offered at retail prices higher than £4.99 (US \$6.99) per 75 cl bottle..... Erreur! Signet non défini.

Table 18: Evolution of the average price of Chilean wine exported to certain markets (us \$/l) Erreur! Signet non défini.

Eastern Countries producers - Could they bring new excitement to the market? _____ Erreur! Signet non défini.

Table 19: Evolution of vineyard area in the world's major wine-producing zones: Western Europe, the New World, and Eastern Europe (ha)..... Erreur! Signet non défini.

Table 20: vineyard area in production in principal eastern countries (ha)..... Erreur! Signet non défini.

Table 21: Evolution in the production (hl) of the three leading wine-producing regions: Western Europe, the New World, Eastern Countries (hl)..... Erreur! Signet non défini.

VI – Conclusion _____ Erreur! Signet non défini.
